Flora Macdonald College

HISTORICAL SKETCH

Flora Macdonald College, under the name of the Red Springs Seminary, was founded in 1896 by Fayetteville Presbytery. Its history has been as romantic as the life of the Scottish heroine whose name and ideals the college now commemorates.

Flora Macdonald College is the natural successor to Floral College which flourished nearby from 1841 to 1878. The descendants of the Scottish Highlanders who emigrated to America and settled in the Cape Fear River basin were distinguished for an appreciation of learning and religion. They not only valued education for their sons but desired equal advantages for their daughters. This sentiment crystallized in Floral College, the first school in North Carolina to grant diplomas to women.

The college grew rapidly in popularity and influence until closed by the Civil War. It reopened in 1866 but succumbed to the reconstruction period and closed its doors finally in 1878. This school exercised a wide influence on the high standards of culture and intelligence which always have distinguished this section of the Carolinas.

The need filled by Floral College persisted. Rev. H. G. Hill, D.D., was especially active in a movement to revive the historic institution under control of Fayetteville Presbytery. This sentiment resulted in an action in 1896 authorizing the establishment of a Seminary for women "somewhere in Robeson or neighboring counties." A committee was appointed and bids were received from communities desiring the new institution. A strong sentiment favored the site of Floral College but conditions had changed. Among many bidders Red Springs, a town of considerable importance, well located and long a center of religious and social activity for the entire section, came forward with the best offer, which was accepted.

This included a site of four acres, with four thousand dollars and the promise of forty students. Rev. S. M. Rankin and Dr. Luther MacMillan were most active in the movement.

Orange and Wilmington Presbyteries later united with Fayetteville in the ownership and control of the college.

The name of Rev. Charles G. Vardell will always be linked with that of Flora Macdonald College. For thirty-four years he was the presiding genius in its remarkable development and usefulness. Under this leader of vision, high ideals, originality, energy and determination the Red Springs Seminary rapidly gained prestige and popularity.

Under the capable direction of Mrs. Vardell, *nee* Linda Lee Rumble, a gifted and highly trained musician, the department of music gained wide recognition. By 1903 the influence of the Red Springs Seminary was felt throughout the south to such a degree that the name was changed to the Southern Presbyterian College and Conservatory of Music.

The college continued to flourish. The frame buildings gave way one by one to modern brick structures until seven commodious units with all modern conveniences stand in the midst of a beautiful campus with long leaf pines, other forest growth, and lovely gardens.

The curriculum kept pace with the rapidly rising educational standards. An unusually well qualified faculty was maintained by careful selection. Students from many states and foreign countries were attracted by the reputation of the college.

In 1914 at a meeting of the Scottish Society of America in Fayetteville, Dr. James A. Macdonald, the editor of the *Toronto Globe* and an international figure, proposed a memorial to the Scottish heroine Flora Macdonald, who had lived for five years in this section of North Carolina. In view of the associations and ideals of the Southern Presbyterian College and Conservatory of Music, he suggested that the name be changed to Flora Macdonald College and an endowment provided which would make it a college of the highest rank and a worthy memorial. With the new name came a fresh impetus to the progress of Flora Macdonald College. The circle of

patrons and interested friends grew. The endowment was increased and educational standards were raised. In 1925 Flora Macdonald College was recognized by the North Carolina Department of Education as a standard "A" college. Graduates who have chosen the teaching field receive Class "A" certificates.

After thirty-four years of splendid achievement, Dr. Vardell laid down the responsibilities of president and became president emeritus. Dr. Henry G. Bedinger was called to succeed him. The college continues to occupy an unique place in the educational world and promises to render even greater service in the years to come.

GENERAL INFORMATION

LOCATION

Flora Macdonald College is located in Red Springs, Robeson County, North Carolina, a town on the Atlantic Coast Line Railway, twenty-five miles from Fayetteville, where direct connection is made with all points North and South. Red Springs, so called from the red sulphur water of its famous springs, is in the long-leaf pine section of the State, and the climate is the same as that of the well-known resorts of Southern Pines and Pinehurst, about thirty-five miles distant. The town is composed of people who have gathered together largely on account of the social and intellectual advantages offered by the College and who desire a thorough education for their children. It is an exceptionally clean town, both physically and morally.

CLIMATE—HEALTH

The location of the College in a climate that knows no excess of heat or cold and where there is free access to the mineral springs long celebrated for their medicinal properties, largely accounts for the remarkable health record of the school. The elevation and sandy nature of the soil made possible the perfect system of drainage and sewerage which has been in-

stalled. All the water used by the College comes from deep bored wells.

PHYSICAL CARE AND MEDICAL ATTENDANCE

The physical welfare of the student is made a prime object of attention. An Infirmary with private bath, hospital beds and every convenience for the care of the sick is under the supervision of a graduate nurse who gives her entire time to the work. A physician of training and experience visits the College and exercises a general oversight of health and sanitation.

A physical examination of each student is made by the college physician, with a view to correcting physical weakness or defect.

Parents need not infer that their daughters are seriously ill when sent to the Infirmary, as they are required to remain there when not well enough to attend classes. In case of serious illness the parents will be notified promptly. If a special nurse is required, the student will pay for this nurse. Patrons must pay for prescriptions and consultations.

Daily walking is required and out-of-doors sports encouraged. Four tennis courts, a basketball field, an archery range, two bowling alleys, a baseball diamond, a volleyball field are provided. The institution has a trained director of physical education.

Parents are requested to have their daughter's eyes and teeth examined before sending her to school. This is important, and much valuable time may be saved by so doing.

All students are required to furnish evidence of vaccination whose potency includes the year of matriculation.

RECREATIONAL FACILITIES

Gymnasium, tennis courts, basketball courts, volley ball courts, badminton courts, hockey, soccer, and baseball fields, archery range, horse shoe courts, shuffle board plots, table tennis tables, bowling alleys, out-of-door swimming pool.

BUILDINGS

The College Buildings are properly lighted and ventilated, are warmed by a central heating plant and supplied with hot and cold water, electric lights, local and long distance telephones.

Administration Hall contains Parlors, Society Halls, Chemical Laboratory, Lecture Rooms, and Work Rooms for the entire department of Home Economics, and Christian Association Library and Reading Room.

East and West Halls contain twelve well lighted classrooms and fifty-six bedrooms designed to accommodate two students each; rooms heated by steam, lighted with electricity, well ventilated, equipped with stationary washstand, running water, and two closets. The rooms are furnished with single iron beds, dressers, tables, and chairs. Bathrooms are connected with the dormitories.

Morgan Hall, which was the gift of the late Mr. Mark Morgan, of Scotland County, contains a spacious dining-room, a serving room and dish pantry, a fireproof kitchen, and forty bedrooms similar to those in East and West Hall.

Vardell Hall contains the Library, offices of the President, Secretary, Business Manager, and Book Room on the first floor, and forty-two bedrooms on the upper floors.

Conservatory Hall. The first floor contains studios and practice rooms. On the second floor is the Auditorium in which religious services and all public exercises are held.

Gymnasium. A large building with a hard wood floor, equipped for indoor exercises and games.

Heat and Light Plant. The College operates a complete system of heating and lighting. This consists of two boilers in a brick building separated from the main buildings and supplies steam and power for the electric lights and steam laundry. A steel tower 50 feet in height supports a tank of 15,000 gallons capacity. An artesian well 110 feet deep, flowing 75 gallons per minute, furnishes the water for the College.

J. Kennedy Tod Art Collection. Between thirty and forty works by artists of note were given by the late Mr. J. Kennedy Tod of Old Greenwich, Conn. Some of the artists represented are: Picknell, Julian Rix, Ben Foster, Bridgeman, Moran, Charles Melville Dewey, Piltz, and Roche.

The college employs a night watchman who makes an inspection of the buildings and grounds once every hour during the night.

RELIGIOUS LIFE

The College is distinctly Christian and the development of Christian character is the chief aim. The faculty is selected not only for scholarship, but especially for sympathetic co-operation in the carrying out of this purpose.

The Bible is a textbook and its study is required.

Morning and evening, faculty and students assemble for worship and singing, reading of the Scripture, and prayer a part of the exercises.

The churches in the town are Presbyterian, Methodist, Baptist, and Episcopal. Students are required to attend church each Sabbath and may attend the church of their own denomination.

The College has an organized Sunday school attendance upon which is voluntary. The classes are taught by members of the faculty, and nearly the whole school is enrolled.

The Flora Macdonald Christian Association is an important factor in the spiritual development of the students. The Association places emphasis on the necessity of systematic devotional study of the Bible, a life of prayer, social and personal service, an intelligent study of missions, and proportionate and systematic giving. Contributions are made to the causes of the Church and various secular and religious objects. Earnest and efficient officers, assisted by a faculty advisory committee, direct the Association work. The Association conducts vespers on Thursday and Sunday evenings, and invites an outside speaker once each month for the Sunday

evening service. The Association has its own library, which is enlarged each year by contributions from students.

SOCIAL LIFE

The authorities consider it essential that the young women have every privilege consistent with student life. Students may shop, visit and receive friends under certain definite regulations.

Social instincts should be gratified. Students are taught to recognize claims and obligations in social life. Every young woman should be able to undertake and carry through successfully certain social functions, and, with this end in view, a number of teas and receptions are arranged by the faculty and students. The annual receptions are given by the Sophomores and Freshmen in February; Juniors and Seniors in April. The two Literary Societies and the Social Committee of the F.M.C.A. are valuable aids in the general social life of the students.

LITERARY SOCIETIES

The two literary societies, Zetesian and Epsilon Chi, are a strong educational and social factor in the College life. The members are required to present carefully prepared papers and to take part in the discussion of questions of general interest. The members realize that it requires tact, skill and unflinching courtesy to preside and take part in these meetings in a proper manner. The work of the societies helps to cultivate these characteristics, inspires students with confidence in their own abilities, and fosters literary judgment. Each society gives one public program and reception during the year.

COLLEGE MAGAZINE

The *Pine and Thistle* is published four times during the year and is helpful to the intellectual growth and training of students.

LECTURE AND RECITAL COURSES

A course of good lectures, concerts and readings is offered at a small cost to the students. The fee is included in the regular expenses, and a season ticket is issued after registration.

GOVERNMENT

The discipline of the College is educative in character. A large part of the students' education consists in learning self-control, self-direction, and due regard for the comfort and rights of others. These lessons come largely through the discipline of the school, which maintains such regulations and requirements as are necessary for the orderly conduct of the household and instruction in the duties we owe to those around us.

In the government of the College the President is assisted by the Government Committee of the Faculty, the Dean of the College giving it her personal supervision. The general conduct of the students is controlled through Student Government as outlined in the Handbook.

By signing the application blank, the student signifies her willingness to accept and abide by the rules and regulations of the College.

SUMMER SCHOOL

A six-weeks summer session is conducted to meet the needs of college students and of teachers desiring summer study. Courses may be taken for college credit toward graduation, and for the raising or renewal of state teachers' certificates.

Room and board may be secured at reasonable rates in private homes. The college dormitories are not open during the summer.

Facilities of the college campus, are available for members of the summer school.

The ninth session of the summer school will be held from May 29 through July 9, 1940.

For further information and special bulletin of the summer school, address: Director of Summer School, Flora Macdonald College, Red Springs, N. C.

MISCELLANEOUS

Parents are earnestly requested to coöperate with the authorities of the school in securing simplicity and appropriateness in the dress of the students. For general wear, any simple dress appropriate to the season may be worn.

Visits and visitors are subject to request of patrons and guardians. No student is permitted to spend the night out of the college building except in the company of parents. Visitors are not admitted to the private apartments of students or to the dining-room without permission of the Dean. They will be received in the College parlors, but not during study hours.

No visitors will be received on the Sabbath except members of the immediate family.

Parents are requested not to give general permissions, as they will not be received, and permissions conflicting with the regulations of the institution will not be granted.

Each room will be allowed one electric light bulb each half year. Additional ones must be paid for by occupants of the room.

Pupils are required to care for their own rooms and to keep them neat and open for inspection.

Each student and teacher must provide her own towels, napkins, sheets, blankets, pillow cases, counterpanes suitable for single iron bed, one teaspoon and a tumbler for use in her room.

All baggage must be plainly marked with the owner's name.

The College may be reached directly by telegraph or long distance telephone.

Out of town students who wish to board in town must make arrangements which are approved by the College authorities.

REUNION CLASSES

As the plan for class reunions had not proved satisfactory, a committee was appointed to find some way by which returning alumnae might meet a larger group of friends. After consulting with other colleges, this committee decided on the Dix Plan.

FORM OF BEQUEST

*I hereby devise and bequeath to Flora Macdonald College,
located at Red Springs, North Carolina, and its successors,*

.....
*to be applied to the uses and purposes of said College, and
under the direction of the Board of Trustees.*

GENERAL ENTRANCE REQUIREMENTS

All correspondence with reference to admission of students should be addressed to the President.

A registration fee of \$5.00 must accompany each application for admission.

A certificate of honorable dismissal from the last school attended must be sent before entrance to College.

For admission to the College, fifteen units secured by the completion of a four years' high school course are required. *A unit represents a year's study in a standard secondary school, consisting approximately of a quarter of a full year's work.* A student desiring admission must send a record of her high school work filled out by the principal or some member of the faculty of her high school.

Blank forms for this purpose will be furnished by Flora MacDonald College, and must be returned to the College by the principal or a member of the faculty and not by the student applying for admission.

Graduates of accredited high schools will be admitted to the Freshman Class by certificate; others, by examination.

The College Entrance Examination will be given Monday, September 9. Students desiring to take this examination should notify the Dean ten days in advance.

Graduation from an accredited high school does not necessarily imply unconditional entrance to the Freshman Class. This depends upon whether the student is able to present the entrance units which are prescribed for the degree for which she is a candidate. In order to do this the high school student should take such courses in high school as will enable her to meet the prescribed entrance requirements for that degree.

Graduates of accredited high schools and students who have passed the College Entrance Examination, but who do not present the specified entrance units should arrange to make up this deficiency before the Sophomore year.

NOTE—First quarter's dues must be paid upon matriculation of student. No student will be enrolled until the payments required for entrance are made. Students who do not register on Tuesday pay enrollment fee of \$1.00.

Bachelor of Music.

REQUIREMENTS FOR GRADUATION

One hundred and twenty semester hours exclusive of Physical Training and Practice Teaching are required for graduation. A semester hour is a period of one hour a week during one semester (one-half the scholastic year). One semester hour is given for two hours of work each week in the laboratory.

A grade of 75 per cent is required on all work. Grades will be indicated on reports as follows:

A (95-100), Excellent.

B (90- 94), Good.

C (80- 89), Fair.

D (75- 79), Barely passed.

E (60- 74), Conditioned failure which may be removed by a reëxamination.

F (below 60), Failure without such privilege, the course to be repeated in class.

Freshmen, Sophomores, and Juniors making E on a subject will be allowed one reëxamination on that subject; Seniors will be allowed more than one by vote of the Curriculum Committee and the head of department in which the subject is taken.

Conditions incurred the first semester should be removed by March 15.

Examinations to remove conditions incurred the second semester will be given on Monday, September 16, 1940.

Any student graduating from the College must have received grades sufficient to entitle her to seventy-five quality points. The quality point is taken as the unit of merit; for example, a grade of A (95-100) gives three points, B (90-94) gives two

points, C (80-89) gives one point, for each semester hour of credit.

The minimum number of hours for each semester shall be fifteen, and the maximum seventeen; but in exceptional cases where permission has been secured from the Dean or Curriculum Committee the minimum number of hours may be twelve and the maximum nineteen.

Students must submit courses to Committee on Admissions or Dean of Faculty for approval.

Any student whose habitual use of the English language violates the rules of grammar and good usage will be required to take a corrective course in oral and written composition.

STANDING

The classification of a student depends upon the amount of college work and the number of quality points she has to her credit, and not upon the length of time she has been in college. A student is classified:

(1) As a Senior, upon the completion of eighty-six semester hours, with grades sufficient to entitle her to fifty-five quality points, provided that seventeen hours be taken each semester of the current session.

(2) As a Junior, upon the completion of fifty-two semester hours, with grades sufficient to entitle her to thirty-five quality points, provided that seventeen hours be taken each semester of the current session.

(3) As a Sophomore, upon the completion of twenty semester hours, with grades sufficient to entitle her to fifteen quality points, provided that seventeen hours be taken each semester of the current session. No student will be admitted to the Sophomore class who has not removed all entrance conditions.

(4) As a Freshman, upon the presentation of a certificate showing the completion of a four-year course of not less than fifteen units in an officially accredited high school, or upon standing entrance examination* on an equivalent amount of

* College Entrance Examination given Monday, September 9, 1940.

preparatory work. Second year regular students who have not been admitted to Sophomore standing are also classified as Freshmen.

(5) As an Irregular or Special student, if the regular admission requirement has not been presented, or if the regular courses of study are not followed.

No first-year student who fails to pass at least twelve semester hours (including elementary courses in languages), and no second- or third-year student who fails to pass eighteen semester hours will be re-admitted to the College the following year.

CREDIT FOR SUMMER SCHOOL WORK

Credit will be given for work done in a recognized summer school, but before the student enrolls in a summer school, the course to be taken must first be approved both as to credit and content by the head of the department concerned at Flora Macdonald College.

ADMISSION TO ADVANCED STANDING

Credit will be given students for acceptable courses satisfactorily completed in approved colleges.

A student applying for advanced standing must fulfill the prescribed entrance requirements for the degree for which she wishes to become a candidate.

A candidate for advanced standing should forward to Flora Macdonald College the following:

- (1) An honorable dismissal from the college attended.
- (2) Official statement of entrance and college credits.
- (3) Marked copy of the catalogue indicating courses completed.
- (4) Laboratory notebooks.

Credit on all courses completed at other than approved colleges is tentative for the first semester. A satisfactory completion of continuation courses automatically establishes credit. When it is not feasible for a student to continue

courses, the Committee on Admissions shall determine the method of approving credits offered.

A candidate for advanced standing should submit her record not later than May 5. Otherwise definite information in regard to her credits cannot be given her before September 15.

WITHDRAWAL OF STUDENTS FROM THE COLLEGE

If at any time in the session a student is found to be lowering either the intellectual or moral tone of the institution, she will be asked to withdraw.
